ISSUE NO. 16

DATE: Aug. 1991

DIRECTORS MESSAGE:

Registrations continue to come in for our conference thanks to all of you who have put up posters and in general promoted the event. We sent out over one hundred and thirty media kits last week. The kits went to newspapers, TV and Radio stations. We also sent or delivered more than two thousand registration forms so far with five hundred more slated for delivery before the end of the month. The cable channel is now running our add and will continue for the next two weeks. If you have any more ideas on how to promote our conference please let us know.

State Meeting: Sunday August 25 at the Comfort Inn in Portsmouth. Time is 7:00 till 9:00 PM. We will try to get a tour of the Convention Center if conditions permit. It will be a good chance for committee members to see the room and make setup plans.

NH. MUFON Members attending the conference will have a chance to participate in a workshop by Budd Hopkins. Budd will conduct the workshop on Saturday the 28th from 2:00 till 4:00 PM. What a fantastic chance to learn from one of the best, so send in your conference registration form now, and join us at the Comfort Inn on the 28th.

Chicago Symposium: Walter Friesendorf and I attended and will share our experiences with you at the meeting Aug. 25th. The highlight for me was the UFO video Colin Andrews showed. It was taken near a crop circle in England.

Welcome New Members :

|--------------------------------|-------------------------|------------------------|
| Daniel G. Bennis, Epping | Andrew J. Bersa, Pelham | John R. Goterch, Derry |
| Robert & Janice Hubbard, Derry | Harry Dermody, Sharon | |
| Kathleen Marden, East Kingston | Nancy Sigmon, Milton | |

SEE YOU AT THE COMFORT INN ON SUNDAY AUG 25 th !

WE NEED YOUR SUPPORT

Peter R. Geremia
Director

NH. MUFON CASE LOG

- | Date: | Time: | |
|---------------|--------------|--|
| July 12, 1991 | 2:00 AM | A Portsmouth, NH man had just returned home from work. While standing outside his home he observed an intense ball of white light. He was looking in an Easterly direction as the ball headed right toward him. It passed directly over his home and suddenly made a sharp angle turn to the South and disappeared. The sky condition was clear. It made no sound and was estimated to be twenty times the size of a star. |
| July 22, 1991 | | A Pittsburgh, NH. man called to report sighting several high altitude white lights. These lights were doing strange maneuvers such as darting back and forth, zig zaging and then shooting off in a straight line. This seems to be a regular occurrence up in the North country according to the witness. He has observed the lights on several occasions, most often between 9:00 and 11:00 PM He has also noted the lights move to a particular place in the sky and disappear. |
| July 27, 1991 | | Mr. Raymond Fowler Director of Investigations referred a possible abduction case to New Hampshire MUFON. A woman from New Durham wrote to Ray about her encounter. He indicated to her NH. MUFON would be her best course of action. She has not contacted us to date. If we don't hear from her in a few weeks I will make the first contact. |
| Aug. 13, 1991 | 2:45 AM | A Rochester, NH. woman observed a black flying wing while looking for falling stars with her nine year old son. The wing passed directly overhead with no sound or lights. She estimated the size as four to five inches if viewed between two hands at arms length. The shape was that of a boomerang with short wings and more rounded nose. She observed a slight white glow on the trailing edge of the craft. The first thing that comes to mind is the stealth B-2 aircraft. The problem with that is no lights, and what is the B-2 doing so far from it's home base. The night sky was clear. She observed the craft fly out of sight at less than six hundred miles per hour. |
