Lee M. Graham
526 W Maple
Monrovia, CA 91016

Dear Mr Graham:

In answer to your letter of 28 July with its voluminous enclosures, I have already concluded that Bill Moore's MJ-12 documents are fake, mostly because of Don Menzel's alleged connection. I knew Don quite well and cannot believe that he was involved in MJ-12 or that he led a double life.

As the enclosed copy of ^(first page) my notes on a talk I gave to the SSE on 30 May '87, I saw Lloyd Berkner only 2 days on the Robertson Panel in Jan 1953, but I very much doubt that he was involved with MJ-12; he certainly never mentioned it.

You can get more on why MJ-12 is a fake from Sancer Smeat Vol 34 No 6 dated 4 Aug '87 - edited by James W. Mosley, P.O. Box 1709, Key West, FL 33041.

Sincerely -

The CIA Robertson Panel on the UFO problem Jan 14-18, 1953

I have last word on UFOs!

34 years ago

Dedicate to 3 UFO greats; H.P. Robertson, an old friend, explainer of the Poynting-Robertson effect that cleans dust out of our solar system who chaired this panel and took its terms seriously (when I did not) the late J. Allen Hynek, who knew more about UFOs than anyone else and James Morekey, editor of an irregular publication Science Source Five who knows more about UFOlogists than I ever will, who was member of SSE briefly until someone discovered he never completed his degree at Columbia
I regret his expulsion

The Robertson Panel = 7 prominent scientists called together by CIA for SECRET meetings in Washington (only time I've been paid by CIA)

Looking back, I am proud, was picked because a friend of HPR,

lived in D.C. (no travel expenses), had TOP SECRET clearance

- got to meet: Luis Alvarez, ^{WWII} radar expert, nuclear physicist, cosmic-ray analysis of pyramids in Egypt, explained ^{Nobel} Dinosaur deaths

Sam Goudsmit of electron-spin fame, who led AHSOS mission to search out German scientists at end of WWII, Brookhaven Lab

→ Lloyd Berkner, DTM Carnegie Inst. State Dept in WWII, Brookhaven Lab
(Two others preferred to remain anonymous). (I cannot remember)

Only record = App. 4 of London Report "Sci. Study of UFOs" declassified with gags

By 1952 craze of Flying Saucer reports hit DC - several in every day across excitement over Nat'l Airtel radar sightings → CIA action

Clearer memory = first mtg Wed 14 Jan read

TRP "news stories cause more people to look up → more misinterpretations

HPR "shut up" Terms of Reference for Panel = serious report to US Govt

- but my point got into final report "UFO reports clog military communications"
